

High Injury Network Maps Data Disclaimer

1/15/25

Disclaimer: The Lancaster County MPO, Lancaster County Planning, and all involved parties and consultants involved in publishing these maps make no warranty or representation, either express or implied, with respect to the accuracy or completeness of the data represented for any particular purpose. The data is provided “as is” and the user assumes all risk of use.

The crash data shown in these maps come from PennDOT’s PA Crash Information Tool. The data used in these maps is comprised of publicly available data. For further clarification on the collection of the data, please visit the [PennDot Crash Download Map](#).

Please note that beginning January 1, 2016, PennDOT adopted the Federal standard for collecting injury severity data. The field descriptions and definitions changed from the state standard that had been in use for decades. This resulted in a substantial shift in severity levels. Therefore, comparison of the “Suspected Serious Injury”, “Suspected Minor Injury” and “Possible Injury” categories will not be consistent for crashes taking place before versus after the adoption of the new standard.
